SMART Membership is an innovative program for small auto repairs which employs 21st century Small Accident Repair Technology.

The program has been developed to help keep your vehicle in pristine condition. For the duration of your membership, you will receive unlimited repairs for scratches, scrapes, chips, dents, and damage to interior trim and alloy wheels so you can continue to enjoy the sparkling paintwork, shiny wheels and immaculate interior of your new vehicle.

Bumps, Scrapes, Chips, Dents...Gone

Our team of mobile specialists the SMART Guys will repair all those unsightly blemishes that detract from your car's good looks. From bumper bar damage, to holes in leather seats. The SMART Guys are ready to carry out the work when you need it, where you need it.

The Smartest Investment You'll Ever Make

Your SMART Membership gives you unlimited repairs for the duration of your membership. Once a member all you pay is one small fixed fee for each repair. There's no expensive insurance excess.

No Quotes... And We Come To You

No quotes to organise. And because we come to you, you don't lose the use of your car. With SMART Membership you can be sure your car will not only retain its good looks, you have the peace of mind of knowing its resale value is also maintained.

smart protection for your car

outside repairs.

minor dents

Because we all use car parks, those nasty little dents from shopping trolleys and other car doors are unavoidable. But in most cases, the paint surface isn't broken. Our state-of-the-art repair technology restores dents on these flat panel areas without repainting. Your doors, bonnet or roof are returned to showroom condition.

paintwork scratches

It can happen anytime. A rough bush in a narrow driveway. An excited dog. A handbag on the boot or bonnet. Once again, your car's duco begins to show signs of wear and tear. The SMART guys repair all these surface scratches, restoring your car's original paint finish.

side mirrors

Exterior side mirror casings are also prone to scrapes and scratches. The SMART guys will return these vulnerable parts to A1 condition.

bumper bars

The most vulnerable and noticeable area prone to damage is your bumper bars. With SMART repair techniques, scratches, scrapes, scuffs and dents disappear. Your bumper is returned to its original condition.

stone chips

Stone chips are the most common and unavoidable type of damage. They are also a major cause of rust, becoming an entry point for moisture, oxygen and road salts. So it's a smart idea to have these chips attended to. We cosmetically repair each chip, which will not only provide protection but also significantly improve your car's appearance.

prestige alloy wheel finish

Blemishes such as kerb scrapes can ruin the appearance of alloy wheels. So can scuffs across hub caps. Using SMART repairs, we restore the damaged area, matching and spraying the original colour, returning the wheel to its original condition.*

car seats

Splits, small tears, scratches, holes and cigarette burns can seriously compromise what is otherwise a clean and tidy interior. Once again, SMART repair techniques mean that damaged leather, vinyl and fabric seats can be made to look like new. Repairs are not only virtually invisible, but prevent small imperfections from turning into something major.

interior trim

Unsightly phone or other installation holes in consoles. Dashboard damage. Wear and tear to interior trim. All are repaired to the highest standards, using the very latest materials and techniques. All SMART interior trim repairs are strong and virtually invisible.

A QUICK REFERENCE GUIDE TO YOUR SMART MEMBERSHIP

WHAT'S COVERED

INTERIOR TRIM & DASHBOARD

Cosmetic repair and re-colour non-structural damage to the interior of the vehicle provided damage is no longer than 50mm. Plus damage such as phone installation holes, scratched and worn leather trim.

STONE CHIPS

Cosmetic repair of up to 20 stone chips.

VINYL, LEATHER & FABRIC SEATS

Cosmetic repair of a hole, scratch or a tear in a seat provided the damage is no greater than 50mm in length and 5mm in width and not on the seam or stitching.

PANEL SURFACE SCRATCHES

Cosmetic repair and remove scratches covering 2 panels providing none of the scratches have cut through the clear coating of the surface.

SIDE MIRRORS CASINGS

Repair of deep scratches, scrapes and cracks, colour match and repaint one side mirror casing.

SMART DENT REMOVAL

Repair of up to 2 dents on a single panel providing each dent is no larger than 100mm in diameter.

NOTE: For each 'damage type' we repair, the Fixed Fee will be payable by you. All repairs listed below exclude replacement parts and trimmings.

WHAT'S NOT COVERED

INTERIOR TRIM & DASHBOARD

Repairs to wood grain, damage to instrumentation panel, headliner, plastic or leather around gear shifter, pedals and steering wheel.

SMART DENT REMOVAL

Repairs where the paint surface has been damaged and where there is no suitable access to the rear of the dent. Also excludes dents on style lines and folds.

BUMPER BARS

Repair of lights or internal structural damage and repairs to metal bumper bars.

STONE CHIPS

Stone chips larger than 3mm in diameter.

ALLOY WHEELS

Structural damage to the wheel itself. Repairs to machine and chrome finished wheels

SIDE MIRRORS CASINGS

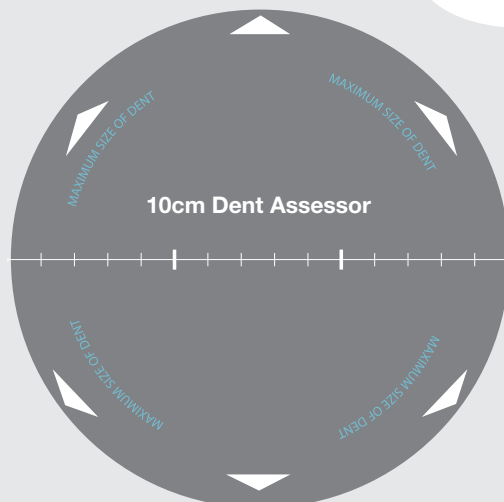

Repair of chrome coloured mirror casings.

BUMPER BARS

Repair, colour match and paint any scratches, scuffs, scrapes or dents on any one bumper bar up to 40cm in length and 2cm in depth.

ALLOY WHEELS / HUB CAPS

Repair and repaint gutter scrapes and scratches to an alloy wheel or two hubcaps.

This template will assist you in assessing small area repairs. Place near to the damaged section. If the entire damage fits within the measurement guides, it may be repaired with small to medium accident repair technology.
